

**Opportunity based in idyllic South Hams for
Primary Care Specialist (Paramedic) / Advanced Clinical Practitioner (Paramedic)**

Salary: Band 7 (salary dependent on existing skills & experience)

The South Hams Primary Care Network has an exciting opportunity for a Paramedic Specialist to join our growing Allied Health Professional (AHP) Team.

Here is a golden opportunity to develop your skills in the expanding area of Primary Care Pharmacy, and for you to actively shape medicines-related systems and services for a population of over 30,000 people. That's not all though, you can also have this:

- Live in South Devon, with an excellent quality of life (we're in the 2019 Halifax top 50 list);
- Enjoy a climate probably better than other parts of the UK;
- Easy access to Devon's amazing coast, beaches, Dartmoor and the University cities of Exeter & Plymouth;
- Easy access ferry services to Brittany & Santander and flights from Exeter airport.

South Hams Primary Care Network is an exciting new NHS collaboration between 5 GP Surgeries: Chillington Health Centre; Dartmouth Medical Practice; Modbury Health Centre; Norton Brook Medical Centre and Redfern Health Centre. Both Modbury and Chillington Health Centres are dispensing practices.

The PCN surgeries look after people in their towns as well as leafy rural Devon in the South Hams and across parts of Dartmoor.

Primary Care Networks are a new development within the NHS and this Primary Care Paramedic role will be new within our PCN, so there will be scope to shape your own role. The Network recognises that applying for this role may feel a little outside your comfort zone.

However, please do consider applying if you have the right experience and qualifications because we wish to offer you:

- A welcoming, friendly and supportive environment where you will be highly valued
- Training within aspects of Primary Care you are unsure or inexperienced
- Support toward gaining a Masters in Advanced Practice (if you don't already hold this)
- Peer support from the whole clinical team including well established Advanced Clinical Practitioners, GPs, Nurses with vast experience and a dedicated AHP Lead
- Flexibility to develop your role according to your skills and experience, the needs of our patients, the needs of our Surgeries and in support of the wider NHS

If you have any queries or would like to arrange an informal chat about the role please contact Sophie Andrews from Leatside Surgery by emailing sophie.andrews@nhs.net or calling 01803 862671.

Please also see the roles job description and person specification.

Closing Date: Monday 15th February 2021
